maintenance of CH47 and CH54 helicopter rotors, but may be used for any overhead maintenance application.

CH47 CH54 Helicopter Maintenance Platform Features & Performance:

- Travel Speed Proportional 0-3 mph (0 – 4.83 k/hr)
- Travel Speed at Elevation Proportional 0 -0.5 mph (0-0.80k/hr)
- Max. Tow Speed: 20 mph (32.2 k/hr)
- Gradability: 30%
- Platform Lift/Lower Speed: 0.40 ft/sec (0.12 m/sec)
*Lift/Lower speed may vary according to load and atmospheric conditions.
- Maximum Platform Height: 14'6" (4.42m)
- Minimum Platform Height: 5'6" (1.68m)
- Maximum Working Height: 20'6" (6.25m)
- Travel Height: 9' (2.74m)
- Guardrail Height: 42" (1.07m)
- Maximum Platform Capacity: 2,250 lbs (1,020.6 kg)
- Capacity on Extenda-decks: 250lbs (113.4kg) on each

MR-15-AC MRO Telescoping Man Lift

Overhead Maintenance, Repair and Operating problems are solved with THIS two-worker MRO telescoping man lift. Helps maintenance workers get jobs done quickly and safely with easy mobility and high speed elevation. Four manually propelled models with working heights to 34'.

MR-15-AC MRO Telescoping Man Lift Hydraulic system includes:

- Large diameter cylinder with chrome-plated ram and fluid restrictor
- Low pressure system includes by-pass pressure valve to prevent overload
- Check valve maintains platform elevation
- Solenoid valve provides remote lowering
- Base mounted lowering valve for safe descent in power failure

- Rated capacity 500 lbs. / two person
- Select from maximum platform heights of 15'0", 19'0", 24'0" or 28'0"
- Roomy 28'0" x 36'0" platform accommodates two workers
- Totally enclosed platform with 42" guard rails, midrails and gate; 4" toeboards and non-slip deck
- Built-in ladder with flat, skid resistant treads and grab rails provides access to platform in fully lowered position
- Rails fold for doorway passage and easy storage
- Non-marking 8" casters for easy rolling and maneuverability
- Self-storing outriggers extend from base to provide maximum stability
- Leveling jacks secure unit to floor and compensate for uneven surfaces
- Standard deep gray enamel finish
- Meets/exceeds ANSI safety standards

maintenance workers get jobs done quickly and safely with easy mobility and high speed elevation. Four manually propelled models with working heights to 34'.

MR-20-DC MRO Telescoping Man Lift Hydraulic system includes:

- Large diameter cylinder with chrome-plated ram and fluid restrictor
- Low pressure system includes by-pass pressure valve to prevent overload
- Check valve maintains platform elevation
- Solenoid valve provides remote lowering
- Base mounted lowering valve for safe descent in power failure

- Rated capacity 500 lbs. / two person
- Select from maximum platform heights of 15', 19', 24' or 28'
- Roomy 28' x 36' platform accommodates two workers
- Totally enclosed platform with 42" guard rails, midrails and gate; 4" toeboards and non-slip deck
